It is my understanding that there will be a discussion tonight on 48 Burns Ave as to whether to allow the NEW plans to be considered under the last 40B approval.

This New plan, by adding additional property not in the original plan would automatically a new submission by the virtue of adding additional land.

This addition of land will automatically trigger new abutters which is part of the 40B requirements.

This plan should be considered a new filing and must go back to mass Housing for a new Certificate to start the process over

Jack Conroy

38-40 Burns
